# Sessions™

## MH510 Headphones

The Sessions™ MH510 is the result of a decade-long collaboration of experience and professional audio expertise. Conceptualized and designed for the accomplished performer – Studio, Live or Playback – get ready to experience your favorite tracks the way the artist intended. The Sessions™ MH510 headphones produce an articulate frequency response with extended lows, smooth mids & life-like highs. Sound Pressure Level capability rivaling a concert experience. World class isolation ensures a private listening experience virtually eliminating bleed into the playback environment. Quality construction stands up to the most demanding performer while not sacrificing comfort. A power handling capability begging for more. Outfitted with two cables (coiled and straight), two sets of earpads to satisfy your changing demands.

Five colors to choose from: Black, Black/Chrome, Black/Orange, White/Gold and White/Red for the look and style your session deserves.

Please use your Sessions™ headphones responsibly. High volumes even for short periods of time can result in hearing loss. Noise Induced Hearing Loss (NIHL) can result from long or repetitive exposure to sound even at moderate levels. Please review additional information concerning hearing health at [www.asha.org](http://www.asha.org) and [www.drf.org](http://www.drf.org).

Keep out of reach of small children. The Sessions™ headphones are a professional audio playback device. They should not be considered a toy and should not be used by small children.
