

# CAD Audio GXL2400USB Studio Condenser

CAD Audio steps forward with the exciting performance of the GXL™ USB Series of studio microphones.

CAD Audio has been creating valued product since 1931 and prides itself on developing and supporting the studio performer.

Our design criterion was straightforward -

develop a high value USB mic with true studio performance.

The GXL™ USB Studio microphones will exceed your expectations and provide superior results for your next recording session.

The GXL2400USB Studio Condenser Microphone features the Akos™ capsule that delivers full range studio fidelity and outstanding transient response.

The Akos™ capsule is then paired with CAD's proprietary a/d converter further ensuring an accurate and efficient signal path.

The GXL2400USB is supplied with a studio quality shock mount, desk stand and cable.

## Specifications:

- \* Principle : Akos™ USB Condenser
- \* Polar pattern: Cardioid
- \* Frequency Response : 20Hz to 18kHz
